

5th Azemmour

Dresden 2017

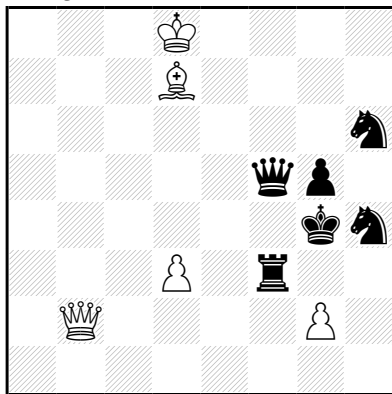

Definition of the Skewer Theme:

In a helpmate in two or more moves with two or more solutions, one black piece **A** moves on all the **first black moves** and one white piece **B** moves on all the **first white moves**. Another black piece **C** makes all the **second black moves** and another white piece **D** makes all the **second white moves**. The black pieces (A, C, ...) and the white pieces (B, D, ...) **must be of a different kind**.

Example

Abdelaziz Onkoud
Tehtävänäikat 2009-10
